

SURAJ SCHOOL

REWARI

A vibrant, circular graphic with a wooden texture. At the top center is a glowing yellow lightbulb with radiating lines. To the left is a blue atomic model with a central nucleus and orbiting electrons. To the right is a molecular structure with yellow and blue spheres. Below the lightbulb are two white plumeria flowers and a red and yellow striped beach umbrella. The central text 'Holiday Homework' is written in a large, bold, red font with a white outline. Below the text are a red and white striped beach ball, a pair of yellow sunglasses reflecting a tropical scene, and a colorful flip-flop. The background is white with faint, light-colored icons of school supplies like a pencil, ruler, and calculator, and various scientific symbols like a DNA helix and a beaker. The entire graphic is surrounded by tropical foliage like palm leaves and monstera leaves.

Holiday Homework

Class 12th, Physics

Unit 1st . Electrostatics

Electric Dipole

Gauss theorem and its application

Equipotential surfaces

Capacitance of a parallel plate capacitor.

Unit 2nd Electricity

Wheat stone bridge.

Drift velocity.

Relation b/w current and drift velocity

Parallel combination of two capacitors.

Unit 3rd Magnetism and matter

Properties of magnetic materials.

Force between two parallel current carrying conductors.

Motion of a charge particle in magnetic field.

Biot savarts law

Ampers circuital law.
